LEARNING OBJECTIVES

The James Igoe Preservation Fellowship is designed to be a practical and interdisciplinary learning opportunity for graduate (or select undergraduate) students interested in history, historic preservation, non-profit management, or advocacy. Fellows are encouraged to explore their personal academic and professional pursuits through the realm of historic preservation and to work with PM staff to set the scope and parameters of the Fellow's final deliverable. Applicants should propose a defined project or specific area of interest as the focus of their Fellowship, with proposed key outcomes or findings relevant to PM's work in the Commonwealth.

The Fellowship will allow the selected candidate to:

- gain practical industry experience working for a premier historic preservation non-profit organization;
- grow their professional network in the historic preservation field; and
- establish a firm foundation from which to launch or further a career in historic preservation.

QUALIFICATIONS

The James Igoe Preservation Fellowship is open to individuals currently enrolled in or recently completed a graduate (or advanced undergraduate) program focusing on history, historic preservation, public history, or related field. Preferred* qualifications include:
